

AMENDED IN ASSEMBLY AUGUST 7, 2006

AMENDED IN ASSEMBLY JUNE 14, 2006

SENATE BILL

No. 652

Introduced by Senator Scott

February 22, 2005

An act to add Section 66721.7 to the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

SB 652, as amended, Scott. Public postsecondary education: transfer of community college students to the University of California.

Existing law establishes the University of California, under the administration of the Regents of the University of California, and the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as 2 of the segments of public postsecondary education in the state.

Existing law, known as the Donahue Higher Education Act, states the intent of the Legislature that the segments of higher education shall pursue the development of transfer agreement programs that specify the curricular requirements that must be met, and the level of achievement that must be attained, by community college students in order for those students to transfer to the campus, undergraduate college, or major of choice.

This bill would add a provision to the Donahue Higher Education Act that requests the University of California (UC) to address deficiencies in the articulation of major preparation courses between the California Community Colleges and the campuses of UC to make it easier for prospective transfer students to identify which community college courses meet major preparation requirements across the

various campuses of the university. The bill would request UC to identify commonalities and differences in similar majors across all UC campuses in order to accomplish specified goals. The bill would request UC to annually review, and update as appropriate, the lower division transfer paths and articulation to ensure that they reflect current UC campus degree requirements and community college curricula.

The bill would require the California Community Colleges, and request the University of California, in consultation with the Academic Senate of the California Community Colleges, ~~to articulate,~~ on or before January 1, 2008, *to facilitate the articulation of* those lower division, baccalaureate-level courses at each campus of the California Community Colleges that meet the lower division transfer path requirements for each major specified by UC in the bill.

The bill would request the University of California, as allowed by enrollment demand and available space, to develop transfer admission agreement programs for students who demonstrate intent to meet the requirements of the transfer process established by the bill, including the declaration of a major and identification of a choice of a destination campus, ~~before earning no more than 30 systemwide semester units, or the equivalent number of quarter units.~~ The bill would require the transfer admission agreement to guarantee admission to the campus and major identified in the agreement and transfer of all units specified in the agreement, subject to the student's successful completion of the requirements of the agreement. *The bill would specify that the paths to transfer specified in the bill would be available to all community college students who desire to transfer to UC and not be limited to those students who secure a transfer admission agreement as specified in the bill.*

The bill would request UC, and require the California Community Colleges, on a 3-year periodic cycle, to jointly conduct a review of a random representative sample of transcripts of students who have transferred to UC and of students preparing for transfer to determine the effectiveness of the transfer preparation pathways referenced in this bill.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The California Master Plan and supporting statutes place the utmost importance on the effective transfer of community college students to the University of California (UC) and the California State University (CSU) as a means of providing access to a baccalaureate degree.

(b) In 2002, UC enrolled nearly 13,000 transfer students from community colleges.

(c) Nearly one-third of all students who earn a baccalaureate degree at UC began their college careers at a community college.

(d) The effective use of state and student time and resources would be maximized by students who accrue fewer unrequired units in earning their degrees.

(e) Additional access to community colleges and UC will be created by higher graduation rates and fewer nonessential units taken.

(f) The State Budget situation makes it urgent to streamline the path of the transfer student to the baccalaureate degree.

(g) Current sources of information regarding campus-specific major preparation do not allow for clear identification and comparison among options by prospective transfer students.

SEC. 2. Section 66721.7 is added to the Education Code, to read:

66721.7. (a) It is the intent of the Legislature to ensure that community college students who wish to earn the baccalaureate degree at the University of California (UC) are provided with clear and effective directions, ~~specifying~~ *that specify* curricular paths to this degree.

(b) This section shall not be construed to limit in any way the ability of students to gain admission through alternative paths to transfer, such as the Intersegmental General Education Transfer Curriculum (IGETC) or any other means.

(c) The University of California is requested to address deficiencies in the articulation of major preparation courses between the California Community Colleges and the various UC campuses to make it easier for prospective transfer students to identify which community college courses meet major

1 preparation requirements across the various campuses of the
2 university.

3 (d) The University of California is requested to identify
4 commonalities and differences in similar majors across all UC
5 campuses in order to accomplish all of the following:

6 (1) To provide students with general descriptions of each
7 major.

8 (2) To identify lower division degree requirements that are
9 common across UC campuses.

10 (3) To identify additional academic requirements at each UC
11 campus.

12 (4) To describe additional criteria that students must achieve
13 to be admitted—~~selected for admission~~ at the various UC
14 campuses.

15 (e) (1) When four or more UC campuses that award
16 undergraduate degrees have articulated specific courses and
17 course sequences of the California Community Colleges for
18 common requirements in similar majors, the remaining UC
19 campuses that offer undergraduate degrees are requested to also
20 articulate these specific community college courses and course
21 sequences. The Legislature recognizes that UC may adopt
22 provisions allowing individual UC campuses to opt out of this
23 articulation process on a case-by-case basis; *however, these*
24 *provisions should be infrequently used, and should allow for*
25 *opting out only as an exception when there is a serious academic*
26 *issue at stake.*

27 (2) For high-demand undergraduate majors, UC is requested to
28 specify lower division transfer paths clearly identifying
29 commonalities, as well as differences, on a comparative basis
30 across UC campuses offering specific major programs. *UC is*
31 *urged to work, in consultation with the UC Academic Senate, to*
32 *minimize the number of campuses whose major requirements*
33 *differ from the equivalent major at other UC campuses. To the*
34 *extent possible, UC is urged to work toward lower-division*
35 *commonality for all campuses for preparation in at least the top*
36 *20 high-demand majors.*

37 (3) The University of California is requested to include all of
38 the following in the systemwide lower division transfer paths for
39 the high-demand baccalaureate major degree programs:

1 (A) ~~A general description of each major Lower-division~~
2 ~~general education requirements for the university.~~

3 (B) Lower division ~~degree major preparation~~ requirements
4 that are common across undergraduate campuses, ~~including~~
5 ~~general education and major requirements, as appropriate.~~

6 (C) Additional lower division degree requirements ~~at each UC~~
7 ~~campus, including general education and major requirements, as~~
8 ~~appropriate that are unique to an individual campus.~~

9 (D) Elective units, as appropriate.

10 (E) Additional criteria, such as grade point averages and
11 minimum grades, to ensure that students are competitive in
12 selective majors.

13 (4) The systemwide lower division transfer paths shall be
14 specified in sufficient manner and detail so that existing and
15 future community college lower division courses may be
16 articulated, according to the usual procedures, to the
17 corresponding UC courses or course descriptions.

18 (f) (1) The University of California is requested to, and the
19 Chancellor of the California Community Colleges shall, in
20 consultation with the Academic Senate of the California
21 Community Colleges, ~~articulate, on or before January 1, 2008, on~~
22 ~~or before January 1, 2008, facilitate the articulation of~~ those
23 lower division, baccalaureate-level courses at each campus of the
24 California Community Colleges that meet the lower division
25 transfer path requirements for each major specified by UC in
26 paragraph (1) of subdivision (e).

27 (2) The University of California is requested to annually
28 review, and update as appropriate, the lower division transfer
29 paths and articulation to ensure that they reflect current UC
30 campus degree requirements and community college curricula,
31 ~~and share the results of that review with the Chancellor of the~~
32 ~~California Community Colleges.~~

33 (g) As allowed by enrollment demand and available space, UC
34 is requested to develop transfer admission agreement programs
35 for students ~~at each campus of the California Community~~
36 ~~Colleges~~ who demonstrate the intent to meet the requirements of
37 this section, including the declaration of a major and
38 identification of a choice of a destination campus, ~~before earning~~
39 ~~no more than 30 systemwide semester units, or the equivalent~~
40 ~~number of quarter units.~~ The transfer admission agreement shall

1 guarantee admission to the campus and major identified in the
2 agreement and transfer of all units specified in the agreement,
3 subject to the student's successful completion of the
4 requirements of the agreement. *It is the intent of the Legislature*
5 *that the transfer admission agreements entered into under this*
6 *section be made available to students early in their academic*
7 *coursework. However, nothing in this section shall be construed*
8 *to preclude or limit the development or issuance of transfer*
9 *admission agreements for students at any appropriate time up to*
10 *the point of transfer.*

11 (h) A path to transfer, as specified in this section, shall be
12 available to any community college student who desires to
13 transfer to UC, and shall not be limited to students who secure a
14 transfer admission agreement as specified in subdivision (g). A
15 student who successfully completes a path to transfer, but who
16 does not secure a transfer admission agreement, shall be
17 guaranteed the transferability and degree applicability for all
18 units that the student has earned pursuant to the path to transfer.
19 However, nothing in this section shall be construed to guarantee
20 admission to UC, or to a specific UC campus, for a student who
21 has not secured a transfer admission agreement.

22 ~~(h)~~

23 (i) The University of California is requested to, and the
24 California Community Colleges shall, on a three-year periodic
25 cycle, jointly conduct a review of a random representative
26 sample of transcripts of students who have transferred to UC and
27 of ~~student~~ students preparing for transfer to determine the
28 effectiveness of the transfer preparation pathways referenced in
29 this section.
